Children's and parents' perspectives in Swedish addiction care

- The majority of Swedish municipalities offer children of parents with alcohol and drug problems interventions, but few children receive these interventions.

Trygga Barnen Foundation

The Trygga Barnen foundation's mission is to help children and youth, up to the age of 25, in families with addiction problems. We provide activities such as support groups, individual conversations and support online.

Trygga Barnen strives to work with the public in order to raise awareness of alcohol and drug abuse affection on the children, and to raise the voice of our target group in society.
