Körperpflege

Du hast verschiedene Möglichkeiten, jemanden bei der Körperpflege zu unterstützen. Wichtig ist jedoch, dass du nur das tust was notwendig ist. Alles was jemand selber kann, soll dieser auch selber machen. Es kann sein, dass gewisse Dinge dann sehr viel länger dauern und du viel Geduld brauchst, im Endeffekt tust du so aber genau das Richtige.

Körperpflege am Waschbecken

Beispiel: Wenn sich eine pflegebedürftige Person selbst die Füße waschen kann, dann kannst du sie das auch machen lassen. So verlemt sie es nicht und wird auch nicht von dir oder anderen abhängia.

Wie kannst du helfen? - Tipps zu verschiedenen Formen der Körperpflege

Ganzkörperwaschungen

Frag die pflegebedürftige Person zuerst, was diese gerne machen würde, und wozu sie sich in der Lage fühlt. Körperpflege kann oft sehr anstrengend sein, und es ist sinnvoll vorher abzusprechen, was alles geolant ist.

Experiences in Austria

- It is difficult to reach young carers.
- Young carers usually do not ask for help.
- They ask for help in crises situations only.
- Young carers prefer online consulting.
- Media and social media are important partners.
- low budget for campaigns
